Pre-Permit Checklist

Initial each box to signify that you have read and understand the requirements of this program. The goal is to clearly document that you have recycled a minimum of 50% of post-construction materials.

STEP 1: Fill out Section 1 on the reverse side with complete project information.

STEP 2: Check which of the following applies:

This project will use an IWMA Certified Recycling Collection Company **exclusively**. (With this choice, you do not need to complete Section 2 on the reverse side.)

All materials will be self-hauled from this site. Use the chart below to estimate waste generated from your project and fill in Section 2 on the reverse side, or estimate quantities based on your experience.

This project will use a combination of a Certified Recycling Collection Company and self-hauling. Fill in Section 2 on reverse side.

If any changes are made to this plan after it has been approved, I will notify the Utilities Department at (805) 781-7213 at the time the plan is changed.

I understand that I must produce receipts for all materials leaving the project site, regardless of destination or method of removal.

(Sign and date)

I certify that I will communicate these plans and requirements to all contractors and other personnel who may be involved in disposal of materials from this project so they can provide receipts for recycling and trash disposal.

I acknowledge that it is ultimately my responsibility to produce all disposal and recycling receipts for this project in order to obtain Blue Card sign-off.

(Sign and date)

Project Completion – Blue Card Sign-Off

1. Gather receipts for all materials that left the project site.
2. Fill out Section 3 on reverse side.
3. Bring receipts and completed form to 879 Morro for sign-off.
